PROFILE

Web developer and designer with more than 2 years of experience creating functional and attractive sites, specializing in modern technologies such as Astro, React, TypeScript and Tailwind CSS. Featured for writing clean code, optimizing performance and SEO, and developing scalable solutions. Passionate about UX/UI design and delivering high-quality projects.

EXPERIENCE

Lumerida Consultora

Marzo 2023 - presente

Web developer and designer

At Lumerida Consultora, I am dedicated to the development of corporate websites and scalable web applications, combining frontend design and robust backend architectures. I optimize performance and SEO, improving key metrics such as Core Web Vitals, and collaborate on innovative projects that drive company goals.

Featured Achievements

- Development and implementation of the new corporate website
- Performance and SEO Optimization on Business Websites
- Development of scalable architectures for web applications
